

**eMpower QR Code Operational Guide**

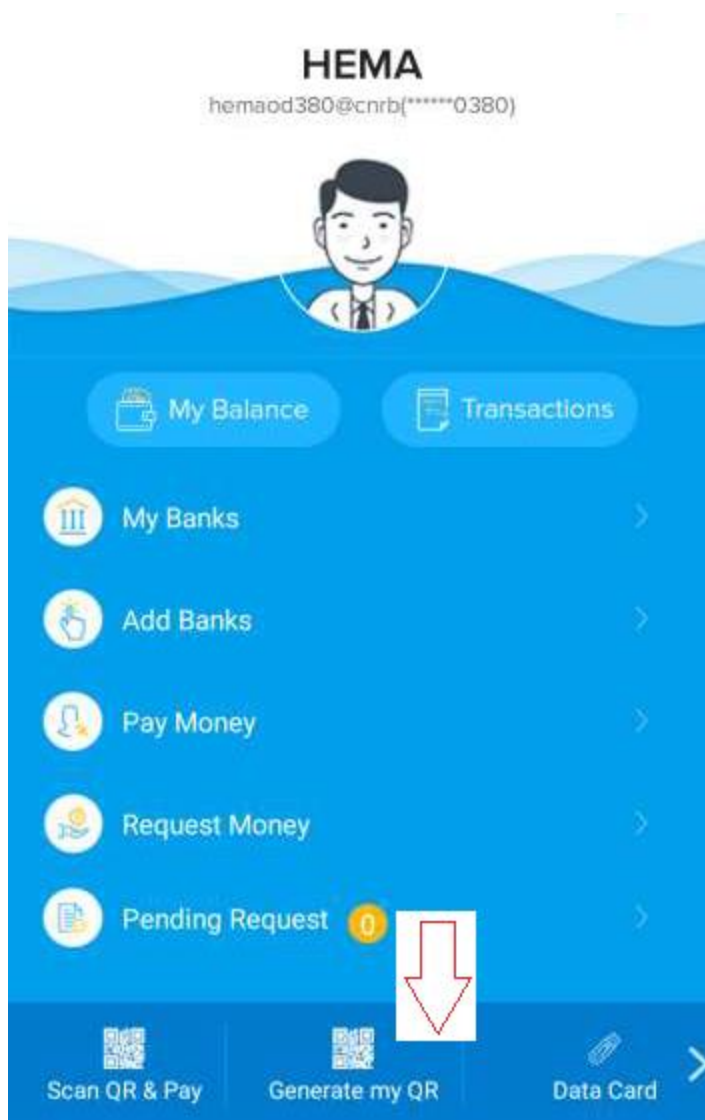

## Steps to Generate and Scan QR Code:

1. Login to eMpower Application with correct credential

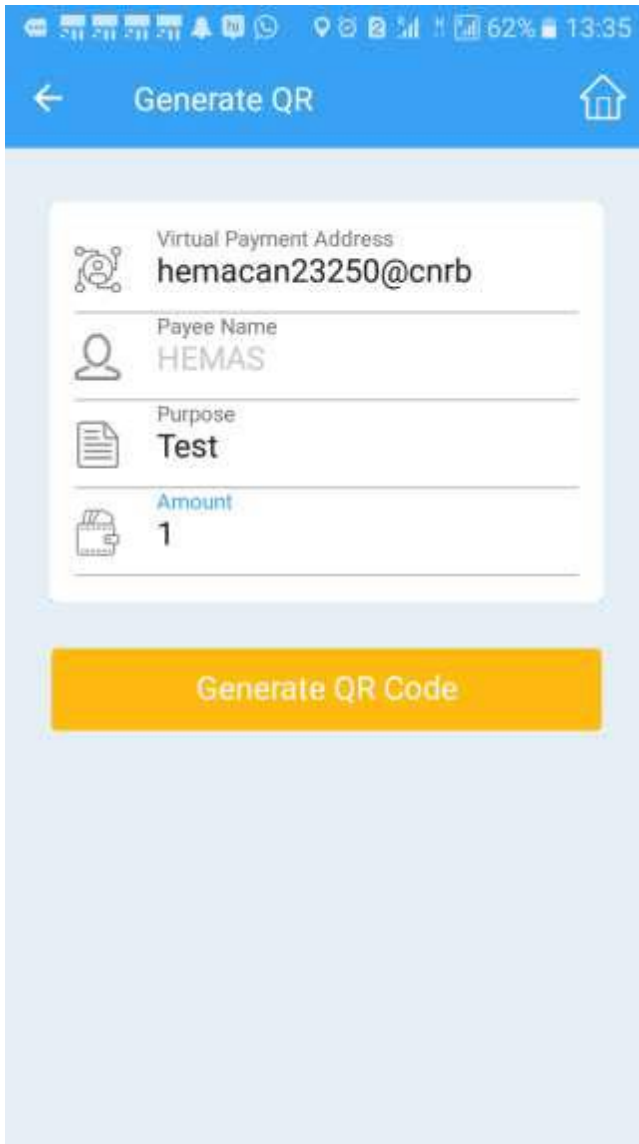

2. Select the "Generate QR Code" Option

3. While Generating the QR Code, merchant needs to be given the following details
  - a. Enter the correct merchant's VPA
  - b. Enter the valid Purpose detail
  - c. Amount

**Tips:**

- QR code generation is the one time process.
- If it is a small retail shop, they can mention their shop name in Purpose column.
- Ideally amount could give as 0, The amount option will be edited by merchant's Customer during the bill payment.

4. Finally Click Generate QR code, then Merchant's QR Code will be generated.

**Name : HEMAS**

**VPA : hemacan23250@cnrb**

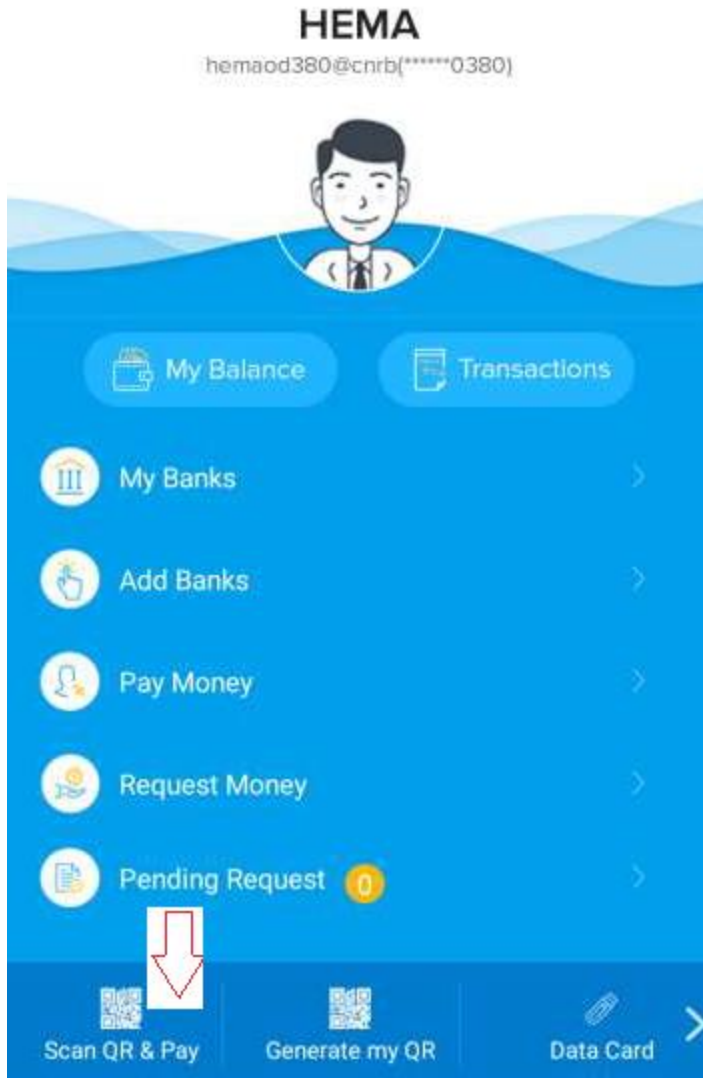

5. Once QR code is generated , QR code can be saved in to mobile in the format of Image and PDF which can share to others through mail, whatsapp,etc.,

Note: In the generated QR code, we could see the Canara bank logo, Name of the merchant and VPA of the Merchant. Also we can take the print out and keep it in merchant's bill desk.

**Steps to making the payment by Merchant's Customer using Scan QR code**

6. Login to eMpower Application -> Click the Scan QR & Pay

7. While Scanning the Merchant's Generated QR code by customer, they can get the merchant's VPA details.

The screenshot shows the Merchant Pay app interface. At the top, there is a blue header with a back arrow, the text "Merchant Pay", and a home icon. Below the header, there are two dropdown menus: "Select Virtual Address" with the value "hemacan23250@cnrb" and "Select Bank" with the value "Canara Bank(\*\*\*\*\*3250)". Below these are four input fields: "Merchant Address :" with the value "sbac82445@cnrb", "Merchant Name :" with the value "DrDURAIPANDITV", "Purpose :" with the value "test", and "Amount :" with the value "₹ 1.00". At the bottom, there is a yellow "SUBMIT" button.

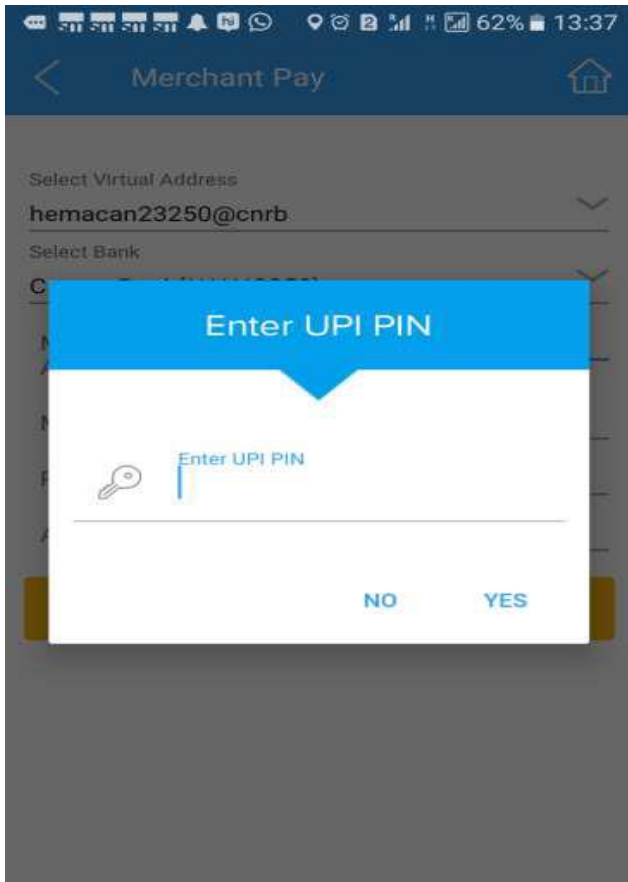

8. Then, the Customer can edit and perform the amount by giving the correct “UPI PIN”.

Note:

Customer can use their MPIN as UPI PIN.

If customer doesn't have the MPIN, they can generate the MPIN as well.

9. Finally customer will get the payment status with Reference ID.

Select Virtual Address

hemacan23250@cnrb

Select Bank

Canara Bank(\*\*\*\*\*3250)

**Empower**

Payment is successful.
